

Holly Springs' UNIVERSITY.

The public generally are respectfully informed that on account of the enlarged state of this institution, since the close of the last session, it has been disposed of agreeably to the grants of its charter, to the Methodist Episcopal Denomination and is now placed under their management and control, under the conviction, that no literary institution, unconnected, either with the State or some Christian body, can possibly succeed as well as when sustained by civil or religious relations.

In the transfer of the institution into the hands of another Board of managers, the general character and object of the institution has not been altered or violated, since the article of the constitution, which "permits no efforts to teach the peculiar tenets of any political party or religious denomination," and which proposes "that it shall be adapted in all respects to make thorough and accomplished scholars; that the course of study is similar to those pursued in the Colleges and universities of the highest standing in our country, that it afford facilities for acquiring a scientific or business education, to those who do not wish to study the learned languages, and that it tend to cultivate a taste for literature and useful knowledge, and to cherish the principles of integrity, honor, patriotism, and Christianity," still remains the same, thus guarding against the improper influence of sectarian dogmas, and carrying forward, upon a more permanent plan, the general object contemplated in the organization of the institution.

The object and intention of the present Board is, to carry out, fully, the design contemplated in the original plan, as time and circumstances may demand, and means permit, viz: The establishment of a Medical and Law department, in addition to the preparatory Department, and the College proper; and to spare no pains in the procurement of highly accomplished, and the most approved professors and instructors, and all the necessary apparatus, required in the progress of a highly finished education.

On a count of limited time—the nature of existing circumstances, and the nearness of the approaching session, the board have not made, any material change in the regulations of the institution, and as permanent arrangements were made by the former board for the present year (ending October next) with slight modification the general arrangements for the ensuing session, will be as heretofore.

In order to attend to necessary preliminary matters it has been deemed expedient to protract the present session two weeks beyond the stipulated time, so that the next session will not begin until the third Monday of June, at 10 o'clock A.M. at which time the session will open, and the exercises commence with a suitable address by the President of the Faculty.

For the coming session, the institution will be under the management of the following faculty, viz:
